

Social Communication Group

Ages 3-5

Mondays 10:45-11:30

Speech-Language Pathologist Julie McDaniel, MS, L-CCC-SLP

Julie uses the Superflex Social Thinking Curriculum to provide a fun, motivating way to improve social and behavioral flexibility and to ultimately develop better self-monitoring for social behavior.

The program is based on the idea that we all have a superhero (Superflex) in our brains. He is constantly battling the "Team of Unthinkables" (a variety of unexpected behaviors) such as: One-Sided Sid, Glassman, and Mean Jean, who may try to take over our brains. Children identify their 'Team of Unthinkables' and learn superflexible strategies to defeat the Unthinkables when they challenge Superflex.

Julie has extensive experience working with young children and the Superflex Social Thinking Curriculum has a good track record of helping children become more socially flexible. Win-win!
