

# Social Communication Group

## For High School Students

**Wednesdays, 5:45-6:30 PM**

**Led by  
Kylie Lureen, MS, CCC-SLP**

**The purpose of this program is to develop:**

- Perspective-taking
- Non-verbal communication
- Social media use
- Conversational turn-taking
- Problem-solving
- Self-regulation
- Identification of emotions
- Initiation & maintenance of friendships
- Awareness of expected vs unexpected social behaviors

**...and much more!**

*"....our student enjoys sports, piano lessons, summer camps and more. But, if we had to choose only one activity to sign up for each season, we would choose Kylie Lureen's social skills group at Communication Works every single time!"*

*The conversations that take place in this small group setting have done more to build up our child's awareness of others, and awareness of self, than all other extra-curricular activities combined. Each week our child becomes more self-aware of his feelings, triggers, reactions, and their effects on those around him. We plan for our child to continue attending Kylie's social skills group at Communication Works for years to come."* Mom of a social group student
